

**BOSCH**

Invented for life

# Every Indian kitchen has oily utensils. That's why it needs a Bosch dishwasher.

Oily kadhais, pots and pans, our new range of dishwashers can handle everything an Indian kitchen dishes out. With thoughtful features like Rackmatic and HomeConnect, doing the dishes is now easier than ever before. Simply put, we are India's No.1 dishwasher brand.

**#IndianKitchenKaDishwasher**

All new range with new features.

Home Connect<sup>^</sup>

\*HomeConnect is currently available in 9 cities (Mumbai, Pune, Bangalore, Hyderabad, Chennai, Jaipur, Kolkata, Ahmedabad, Delhi) and will be available in other cities very soon. #Source: Euromonitor International Limited, volume sales, 2021. \*T&C Apply.

# Pioneers in Dishwasher

**1886** Sketches of the world's first effective dishwasher.

**1964** Bosch presents the SA12 dishwasher.

**1977** Bosch introduces the first under-the-counter dishwasher.

**1993** Upper washing level option allows flexible load sizes.

**1996** Bosch introduces water and energy-optimising AquaSensor™ technology.

**1999** The launch of first dishwasher with automatic programmes.

**2006** The debut of Bosch's unique DosageAssist detergent system, is first in the world.

**2008** Thanks to the Zeolith Patented Technology that even plastics are completely dry. The use of the energy-efficient EcoSilence Drive has brushless motors in Bosch dishwashers.

**2021** Bosch presents its new and fully connected dishwasher generation. Bosch is the world's No.1 dishwashing brand\* since 2012.

## Introduction

Let your amazing cooking stories have a happy ending.

After spending enough time cooking, Bosch Dishwashers ensure that you spend the rest of your time comfortably. Enjoy those post-meal moments with your loved ones, than have to worry on spending your time cleaning those tough masala and oily stains, off your Indian utensils. Perfectly programmed to pre-rinse, wash and dry, your Bosch dishwashers give you sparkling and hygienic utensils, ready for use within no time.

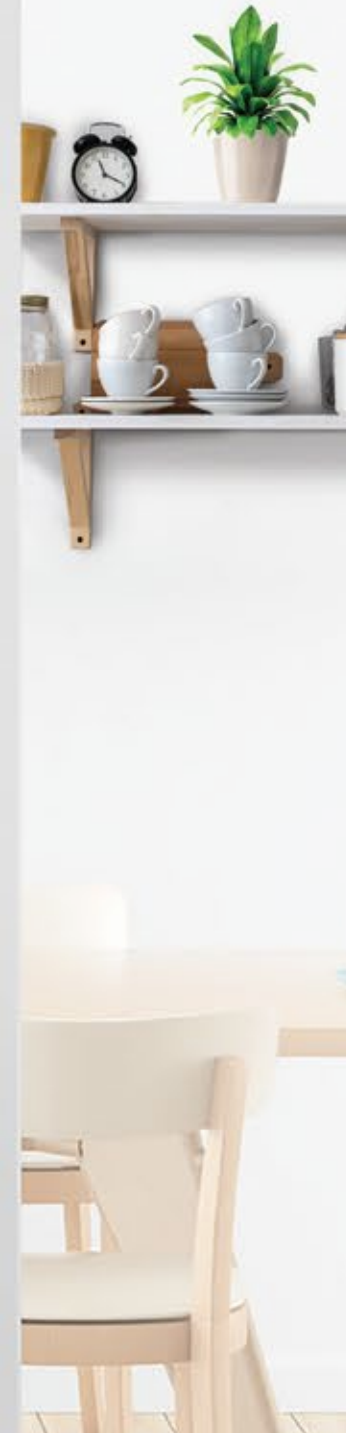

#IndianKitchenKaDishwasher

## We care about you and your hands too.

Built with advanced German technology, our dishwashers ensure deep cleaning of all the utensils, eliminating the physical effort of manual washing, leaving you with wrinkle-free hands.

## Benefits of a dishwasher

### Bosch Wash vs Hand Wash

- |  |  |
|--|--|
|  Low water consumption: <b>9.5 litres</b>   |  High water consumption: <b>60 litres</b>   |
|  Hygienic Washing: <b>Kills 99.9% bacteria</b> by washing utensils in 70° C water                           |  Unhygienic: Cold water and soiled sponge <b>promotes bacterial growth</b>  |
|  Dry Utensils: Spotless utensils with <b>no wiping required</b>   |  Semi-Dry utensils: <b>Manual effort</b> of wiping required   |
|  Consumes <b>less electricity</b> : 0.8 units per wash  |  Additional Physical Energy: Consumes <b>time and effort</b>  |
|  Minimal labour: Only loading and unloading of utensils required. Can be used <b>multiple times a day</b> |  Labour intensive: Increased <b>physical stress</b> and piling of unhygienic utensils due to <b>limited washing</b> |
|  Automatic Washing: Pre-rinse, washing & drying, <b>thoroughly cleans</b> the oily & soiled utensils      |  Manual Process: Soaking, washing and wiping, giving <b>below optimal output</b>                                    |
|  Delicate washing: <b>Protects crockery</b> from damage   |  Rigorous Washing: Possibility of <b>damage to crockery</b>   |

## Working Cycles

Get to know what goes behind a perfect dishwashing experience.

There are four stages to the dishwashing cycle:

### 1. The Pre-rinse cycle

The food particles stuck on the utensils are taken care of by the pre-rinse cycle which uses hot water to pre wash. Once the process is complete, the machine drains out the water.

### 2. Washing Cycle

The main wash cycle happens in hot water. After the process is complete the machine drains out the water.

### 3. Rinsing

For every rinse cycle, Bosch dishwasher takes in fresh hot water. The surface tension of the water is reduced by adding a rinse aid in the last cycle which makes the water runoff quickly ensuring the dishes come out dry and sparkling clean.

### 4. Drying

How is 100% drying ensured? This is because of the hot water used during the wash cycle that heats the inner walls of the dishwasher.

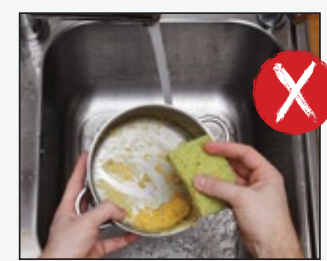

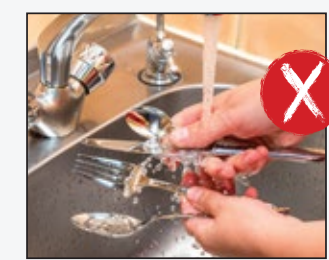

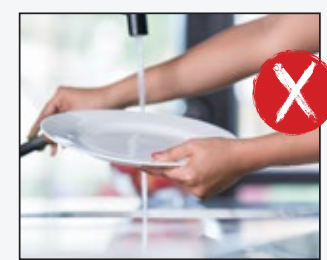

#IndianKitchenKaDishwasher

**No pre-rinse required**

When we say 'effortless', we actually mean it.

Directly load the utensils in the dishwasher after scraping the leftovers, without any need to manually pre-rinse them.

## Sparkling Clean

# Perfected to clean and fit all kinds of oily utensils and stains.

We at Bosch, have specifically designed the dishwasher considering the rigours of Indian cooking, as well as the big odd shaped utensils. The **'Intensive Kadhai Programme'** with it's **70°C** hot water, cleans all the greasy and oily residue off kadhais, patilas etc. with just a press of a button.

Kadhai

Pressure Cooker

Serving Pot

Feature:

#IndianKitchenKaDishwasher

## Hygienic

Germ-free,  
Odour-free, Stain-free,  
to make you worry free.

Our dishwashers use 70°C hot water to wash away all the dirty grease off your utensils. The hot water hygienic wash kills 99% germs from all the utensils including baby sippers, making them odour free and safe.

**70°C** HOT WATER WASH

**99.99%** KILLS 99.99% GERMS

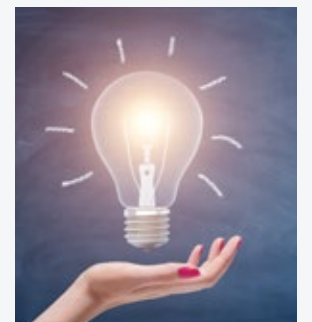

## Eco-friendly

It saves electricity,  
water and your efforts.

We care about your well-being and the environment too. Hence, our dishwashers consume only 9.5 litres of water and less than 0.8kwh of energy per wash thereby conserving water and electricity.

# What's Inside Your Dishwasher?

### Spray Arms

The lower spray arm and the upper spray arm rotates when the dishwasher is in operation. The curved shape of the spray arms ensures that the jets of hot water are spread evenly to each and every corner of the vessel.

### Filter System

3-Stage drainage and filtration system with a high filtration rate, for the best dishwashing results.

### Dishwasher Salt Dispenser

Dishwasher salt neutralises the effects of hard water, minimising the buildup of limescale deposits on your appliance and dishes.

### Detergent Dispenser

Dosage compartment for dishwasher detergent tablets and powder.

### Top Shower

It dispenses water from above and helps in cleansing of the utensils in a better way.

### Cutlery Drawer

A cutlery tray for cutlery and small dishes.

### Top Basket

Ideal for placing a variety of light crockery, delicate dishes and wine glasses.

### DosageAssist detergent dispenser

A unique feature in Bosch where Detergent tablets are dissolved efficiently in a special tray preventing these tablets sticking in between dishes, pots and pans for an enhanced cleaning performance.

### Bottom Basket

Exposed to the highest spray pressure and water temperature from the lower spray arm, this compartment is perfect for cleaning large crockery like pots and pans. Accessories such as cutlery baskets, bottle holders and baby bottle clips should be placed in the lower basket as it is the best for removing stubborn stains.

### Rinse Aid Dispenser

Rinse aid solution disperses water from the surface of your dishes, reducing water spots and giving your dishes a brilliant shine.

Full Load

Half Load

### Load variations

Capable of handling higher and lower volume.

#### Party for two or twenty, you can count on us.

We know that hosting a party is fun but not until there is a huge pile of dishes. Our dishwasher is completely capable of handling higher volume of utensils like your kadhais and pans or you can even switch to the Half load option for cleaning a lesser volume of utensils.

#### Half Load

No need to wait for the dishwasher to fill up before starting the wash cycle; Choose half load option and save water, electricity and more importantly, your time.

## Loading Guide

# Load your utensils, unload your worries.

Loading your dirty utensils in our dishwasher is extremely easy. Here's the simple 6 step process:

**1. Scrape leftovers - no need to manually rinse the utensils.**

**2. Load the upper basket by placing the dishes upside down.**

1. Please avoid overlapping of crockery when loading into the dishwasher.
2. Place dishes upside down to avoid water puddles.

**3. Load the lower basket by placing the dishes upside down.**

1. Place bigger utensils in the lower basket.
2. Please avoid overlapping of crockery when loading into the dishwasher.

**4. Ensure that the spray arms are not blocked.**

**5. Put detergent in the dispenser and close the door.**

1. Use detergent approved for dishwashers only.

**6. Choose a programme and press start button.**

Most of your everyday utensils can be washed in a dishwasher including microwave friendly plastics. Avoid the usage of utensils made of wood, aluminium, cast iron, non-stick, coated metals, copper and silver.

### **Clutter-free kitchen**

Say goodbye  
to your messy  
kitchen.

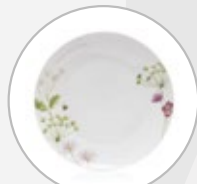

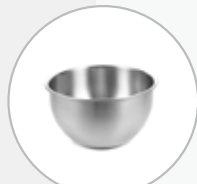

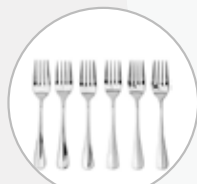

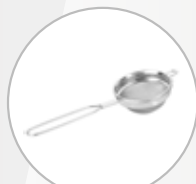

After using your utensils, you can directly place them in their designated place in our systematically designed dishwasher, leaving the kitchen platform clutter-free and spacious.

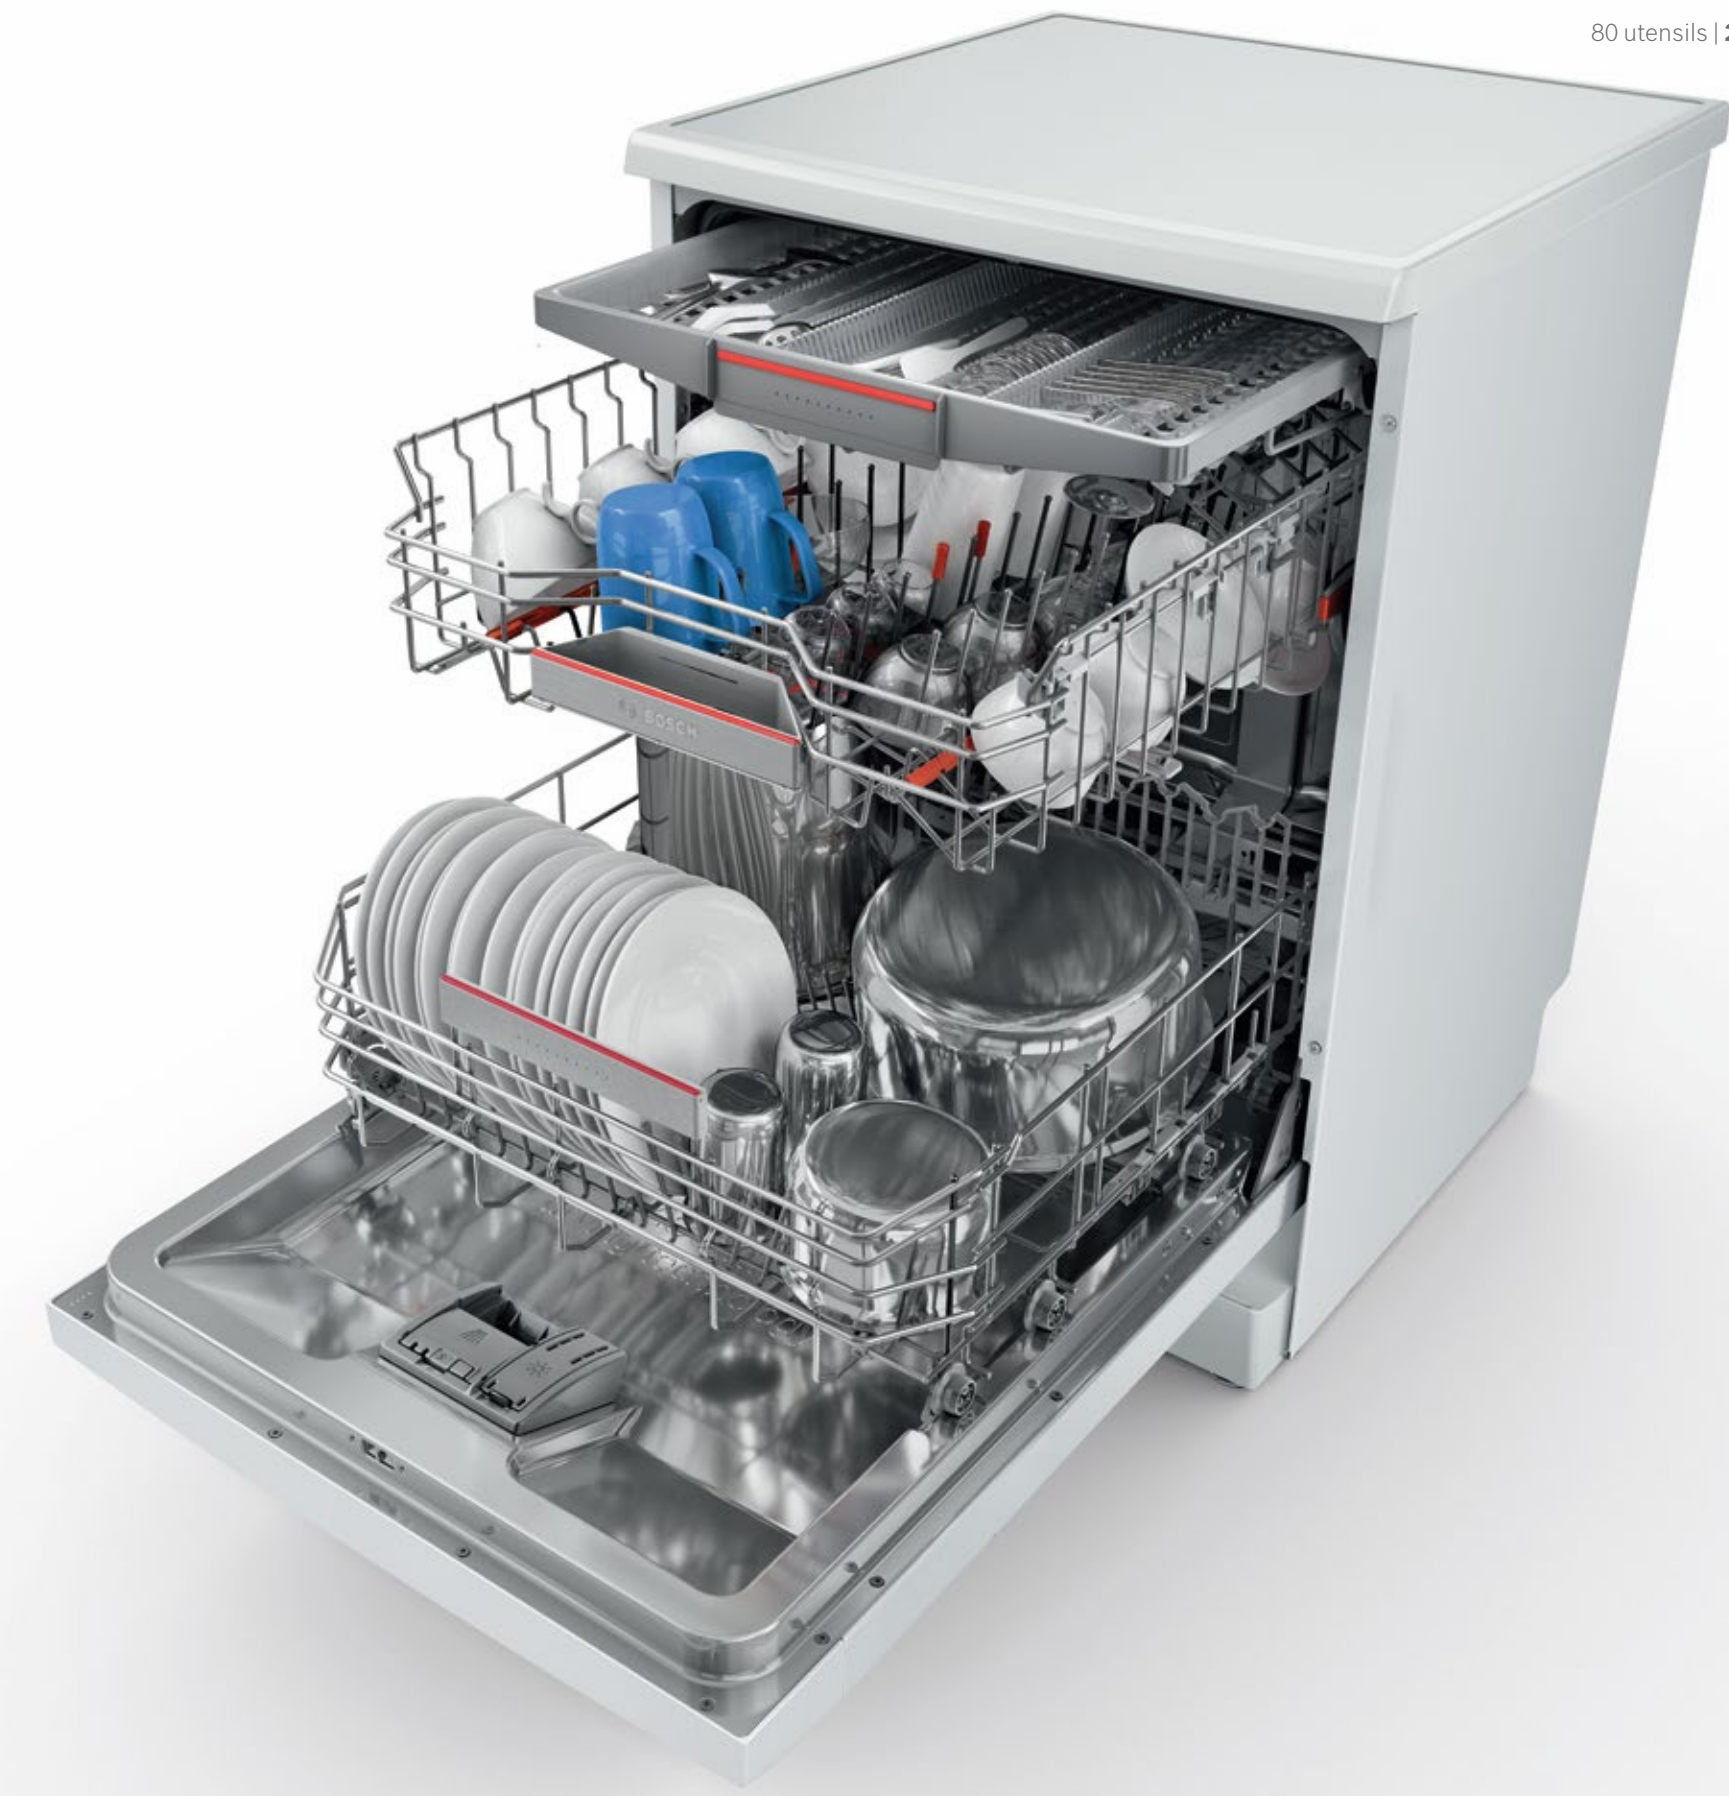

#IndianKitchenKaDishwasher

# 80 utensils\* can fit in a single load of a Bosch Dishwasher

New

### Flexible Baskets

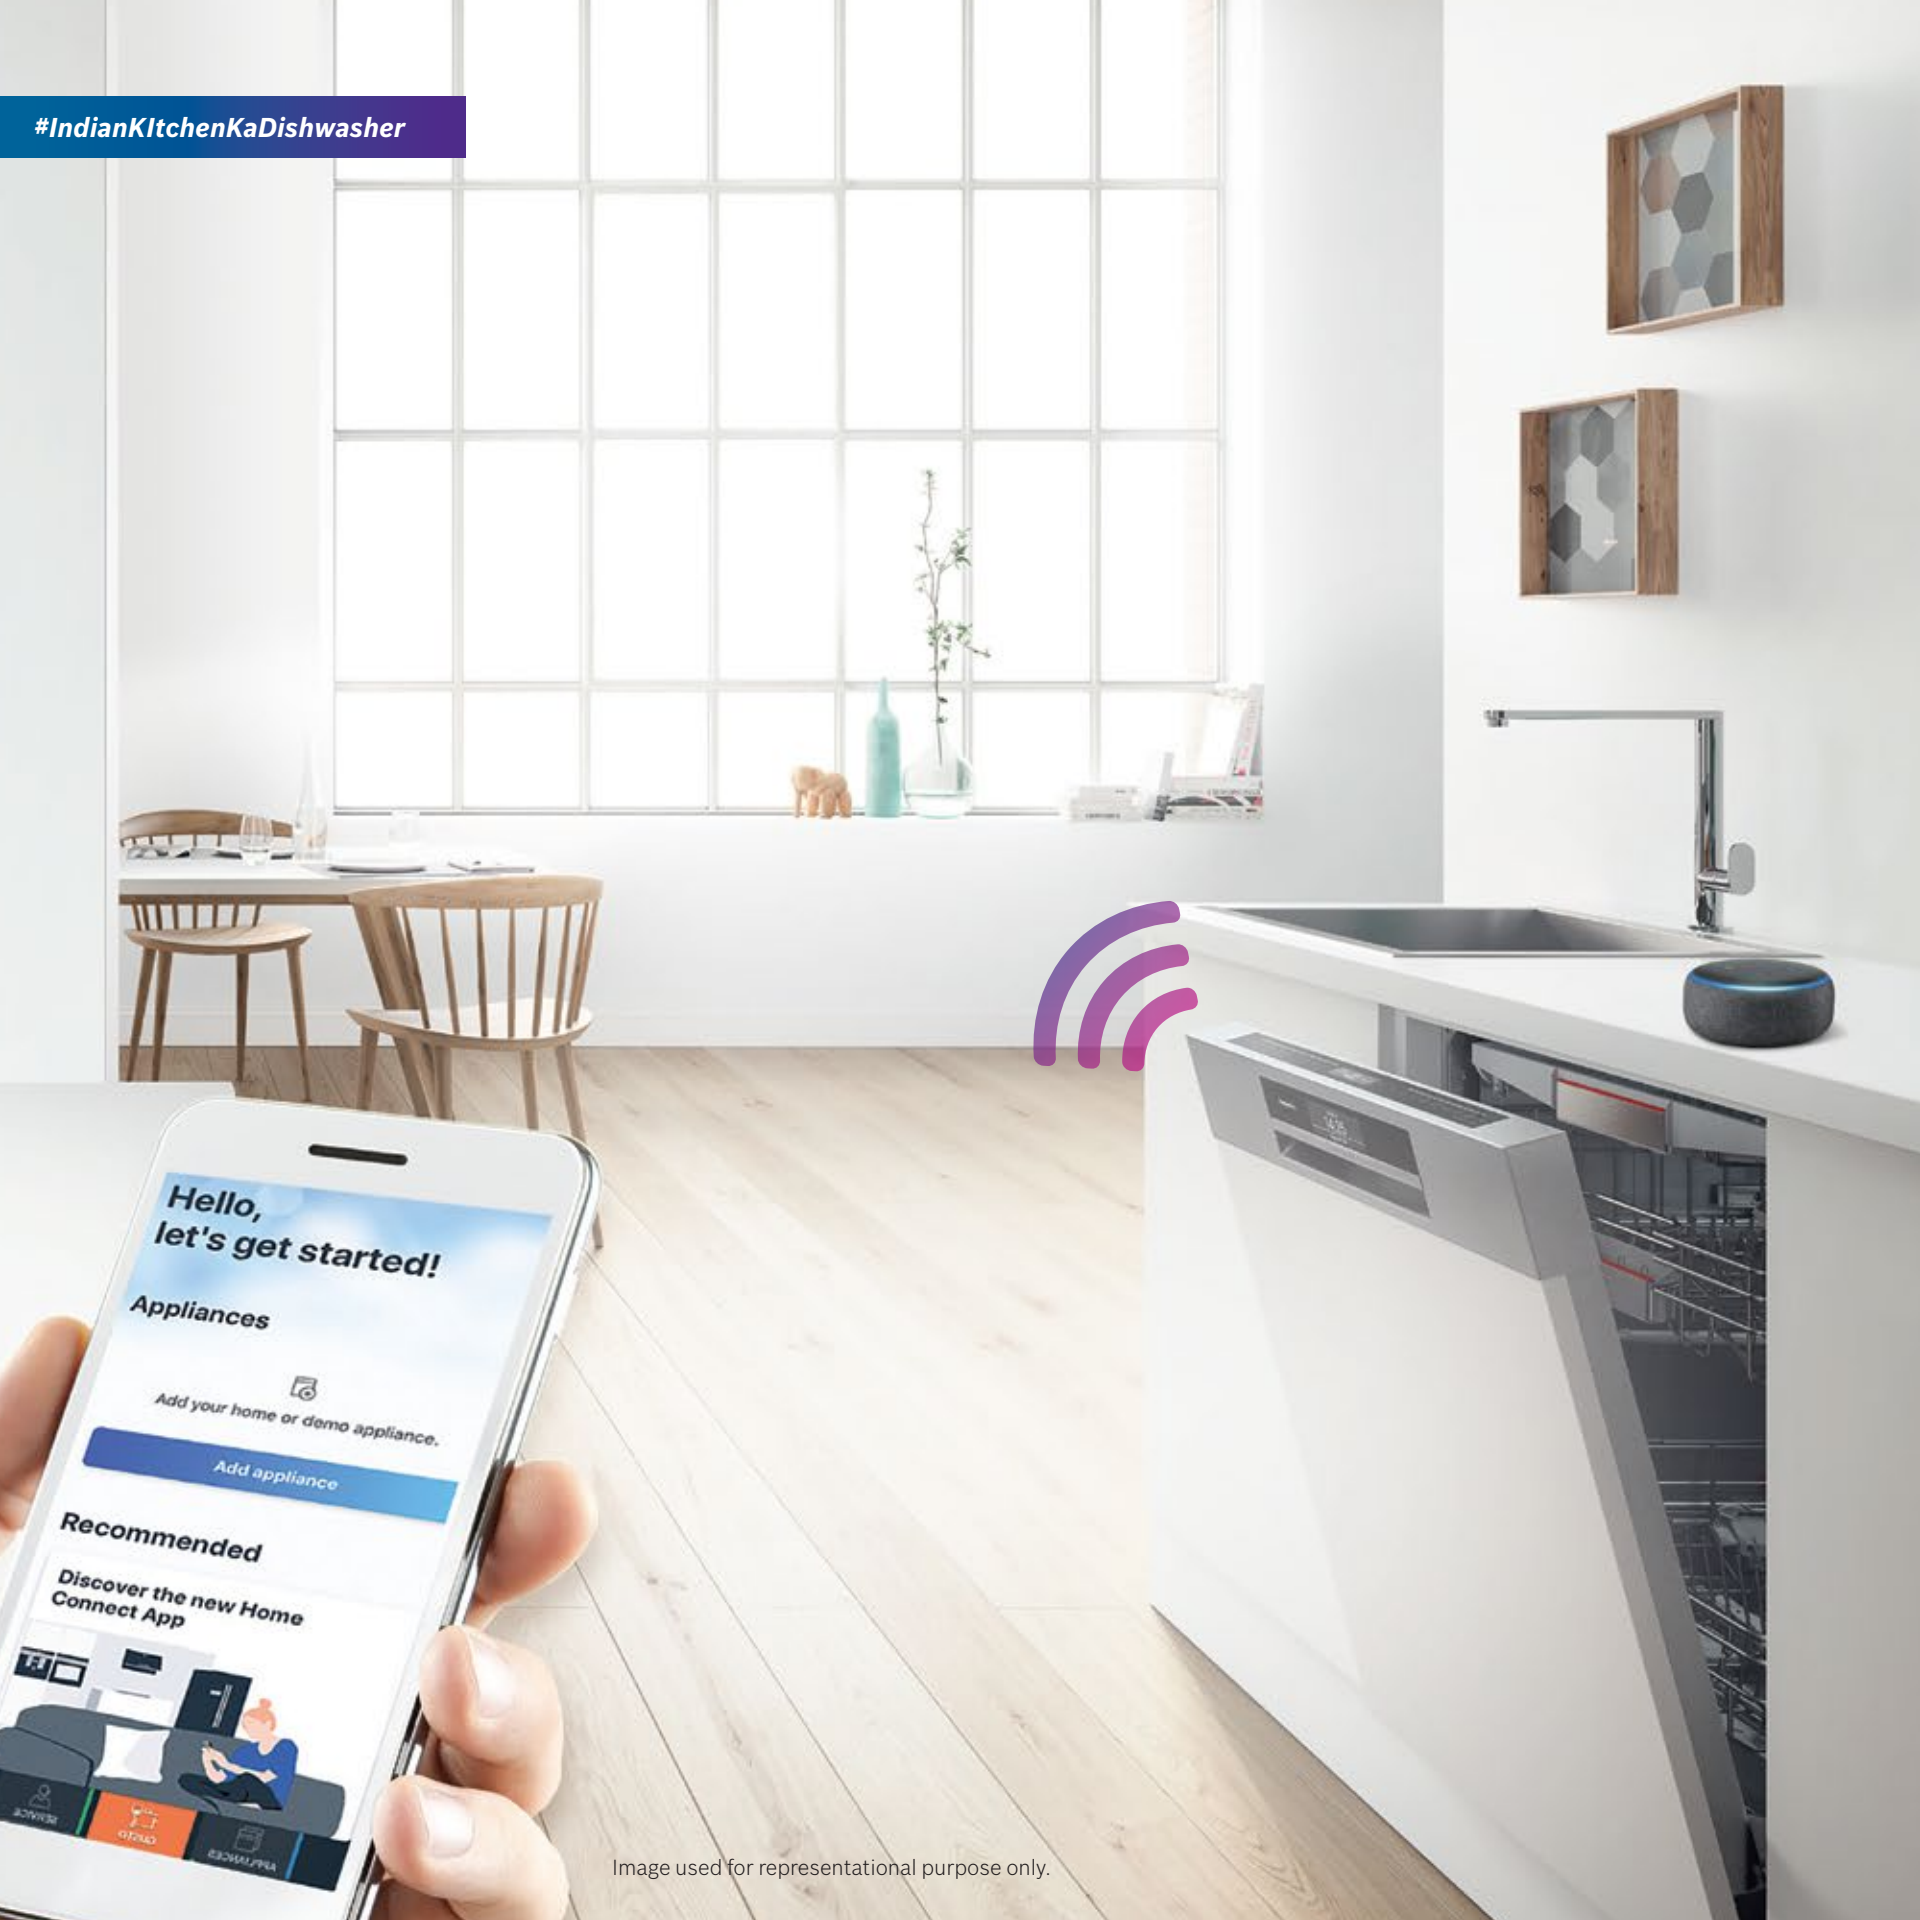

## Rackmatic basket: Adjust, So that you don't have to.

The 3-Stage Rackmatic flexible basket fits almost everything your kitchen has to offer. By pushing a simple clip on the upper basket, you can adjust it's height at 3 levels vertically to accommodate Indian utensils of different sizes. German Engineered, made for India.

Feature:

New

## Remote Access

# Home is where the dishwasher is. HomeConnect is wherever you are.

The IOT enabled remote-access ecosystem lets you connect directly with your dishwasher from anywhere, through the HomeConnect^ App. Now you can control everything on the go.

### Features:

#### Remote monitoring & Controlling

Whether you are out on a date or in the next room, you will always be able to monitor your dishwasher by getting complete information on the cleaning process. It sends you notifications and even enables you to manage the settings from a remote location.

#### Remote Diagnostics\*

Remote Diagnostics enables the customer service to remotely connect to HomeConnect dishwasher and diagnose the potential problem. If a home visit is required, technician will come well prepared to resolve the problem.

#### Easy Start Assistance

Easy start simplifies the use of the dishwasher by answering a few simple questions about your cleaning preferences and dish type on the Home Connect app. The ideal programme will be recommended and you can remotely start it from your phone.

#### Downloadable Programmes\*

With the Home connect Application, you can download the programme of your choice as per your need.

#### Notification & Reminder

Home Connect users get notifications or reminders when rinse aid/salt level in the compartment of their dishwasher is low. The application also sends reminders to you on your smart watch if it is connected, that a new package of tablets are needed to be bought.

#### Voice assistance

You can switch on and off and know the status of your dishwasher using voice control. It seamlessly integrates with Alexa and Google assistant.

#### Appliance software update through Home Connect

#### Favorites

Home Connect users can save their favourite settings (programme + options) on the home screen of the application and have an easy access to their regular used programmes and options.

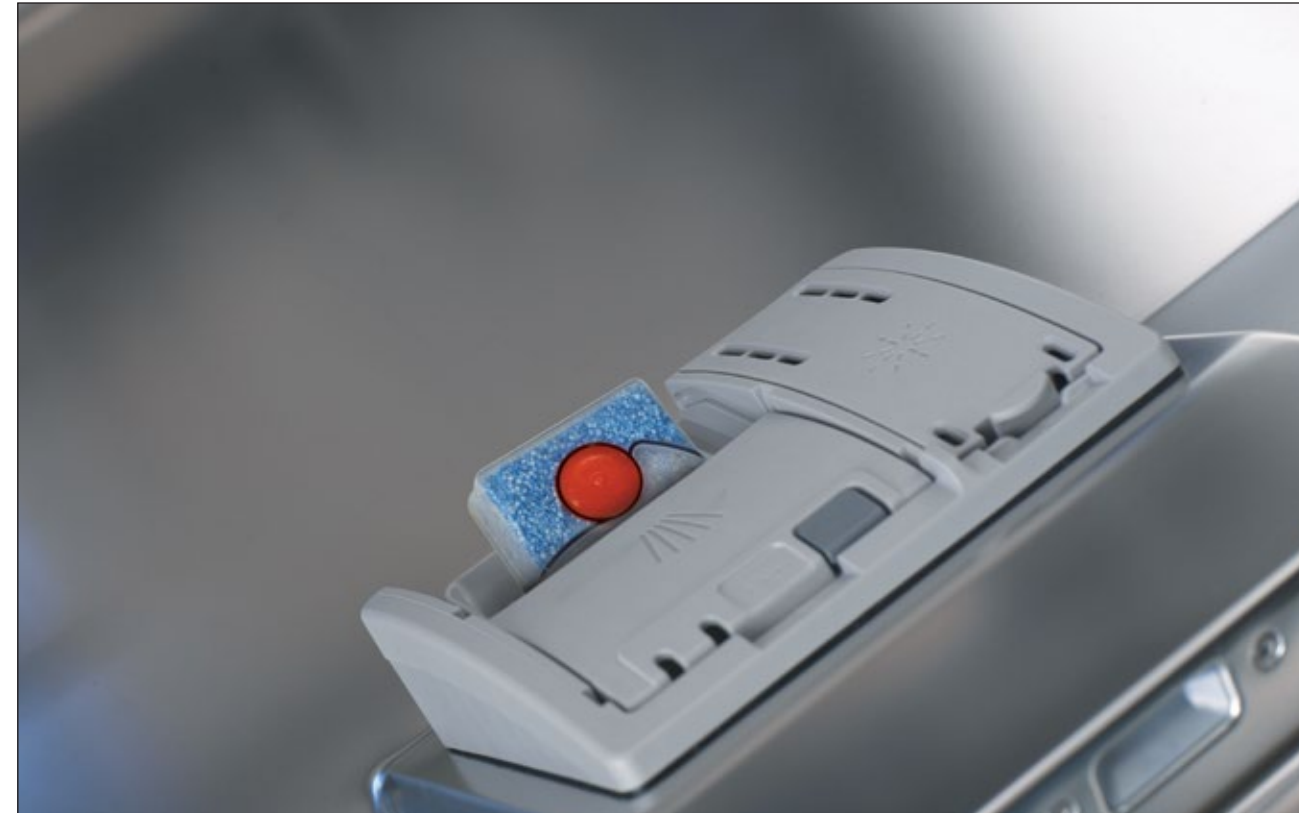

Connected Partner

Image used for representational purpose only.

\*HomeConnect is currently available in 9 cities (Mumbai, Pune, Bangalore, Hyderabad, Chennai, Jaipur, Kolkata, Ahmedabad, Delhi) and will be available in other cities very soon. \*Remote diagnostic & downloadable programmes will be available soon in India as well.

## Smart Dosing

# DosageAssist™

The DosageAssist™ feature maximises the effectiveness of detergent tablets by dropping them into a specially designed tray that is targeted by water jets, resulting in a tablet that dissolves evenly under control ensuring optimal usage.

Feature:

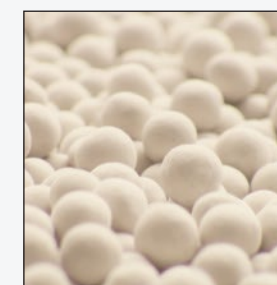

## Shine & Dry

### PerfectDry with Zeolith®

A unique, energy-efficient function that produces ready-to-use utensils by harnessing the power of Zeolith® resulting in a better drying performance and less electricity consumption.

The **PerfectDry** technology gives ultimate drying performance for your dishes with an even, strong, yet gentle 3D air flow. It takes in humidity and transforms this into warm air using Zeolith®. Your dishware and now even plastic dishes – are not only brilliantly clean, they are also perfectly dry.

**Zeolith®** is an energy-efficient, fast drying technique that evenly dries utensils. At the bottom of the dishwasher, there are zeolite granules that trap moisture and convert it into heat. The mineral regenerates itself after every program and you don't have to replace it.

# Looks like a dishwasher, fits like a glove.

The compact yet elegant design of our dishwashers make it easy for you to place it as per your convenience and preference.

## Besides the kitchen slab

Our dishwashers can be placed right besides your kitchen slab for convenience and easy access.

## In the utility area

Our dishwashers are rightfully designed and can be placed as per your convenience and availability of free space.

## Underneath the kitchen slab

Our dishwashers blend right into your kitchen by seamlessly fitting under the slab.

## On top of the washing machine over a slab

You can simply place our dishwasher on a firm slab above your washing machine and save space.

## Detergent Solutions

We are with you from the time you buy it to the time you get it clean.

Dishwasher needs special detergents that help to deliver sparkling clean dishes. This dishwasher detergent kit is easily available in all leading retail stores & online portals.

Available products:

Dishwasher Detergent, Rinse Aid, Dishwasher Salt, All-in-one Dishwasher Tablet.

### Why are these products so special?

- The **Automatic Dishwasher Detergent** is specially formulated for best washing results.
- Water drops often leave spots on the utensils. **Rinse Aid** helps in avoiding this. It also reduces the surface tension of the water, allowing water to run off quickly and results in those squeaky-clean and dry utensils!
- The **Dishwashing Salt** softens the water. Avoid the usage of local rock salt, iodised salt or table salt in the dishwasher. It's not just the salt that reduces water hardness, it is done with the help of ionizer contained at the base and beside the salt container. The capacity of the salt tank is approx. 1 Kg.
- The **Tablet** contains a mixture of Detergent, Dishwashing Salt and Rinse Aid. One tablet is ideal for one wash cycle.

## Busting Myths

70°C

### Dishwasher is not capable of cleaning Indian Masala stains.

It can easily clean all types of Masala, oil stains and greasy food residue. You can also set its temperature from 45°C to 70°C depending on how dirty your dishes are.

### Dishwasher is not suitable for Stainless steel utensils used in Indian homes.

It is suitable for all type of utensils like stainless steel, glassware, bone china, microwaveable plastics, etc. It is safe even for your precious crockery pieces.

### It doesn't have the space for my Kadhai and other large utensils.

With two baskets, it can hold your Kadhais, pots, pans and still have space for your plates, spoons and glassware.

60 cm

### It won't fit in my kitchen.

The dishwasher fits perfectly into any Indian kitchen, requiring space of only 60 cm width. So, no more dirty dishes stacked in the sink.

### It's not hygienic to wash baby bottles in it.

It's 70°C temperature wash kills up to 99.9% germs and is suitable for hygienically cleaning baby bottles as well.

### If we have to pre-rinse the dishes before putting in, what's the use.

You don't have to manually pre-rinse the dishes. All you have to do is scrape off the leftovers from the dishes and load them in.

### It can't scrub the dishes like how I do with my hands.

It's powerful spray arms removes all the stubborn Masala and oil stains with high water pressure giving you perfect clean results.

### It takes a lot of time to wash dishes.

Washing and drying of the utensils can be done within an hour in a dishwasher. Loading of the dishes takes only 10 minutes and the overall dishwashing cycle gets done in a jiffy.

### My electricity bill will go up.

It is highly energy-efficient and uses around 0.8 units of energy for each wash.

### It is not easy to operate and handle.

Wash, clean and dry utensils at the push of a button. It's so easy that anyone can operate it. The best part is that you can use it at any time of the day - as per your convenience.
