VitaFresh:

Keeps fruits and vegetables fresh/ VitaFresh reduces wastage as vegetables and fruits are kept fresh for longer.

VariInverter*:

Uses the least amount of power and saves up to 40% on your electricity bill.

NoFrost:

Prevents ice from forming thus, saving your time and effort from defrosting.

SuperCooling:

Super Cooling reduces the fridge temperature quickly. Once done the compressor turns off and provides the coolest drinks.

SuperFreezing:

The SuperFreezing feature reduces temperature quickly, for you to get ice any time you want.

Reversible door:

When you need your appliance to fit into a specific space, without compromising the ease of opening and closing your fridge freezer's doors.
